GRAHAM BROS.

Seedsman and Florists,

29 SPARKS STREET,

SUNNYSIDE GREENHOUSES,
LINDEN AVENUE.

OTTAWA, ONTARIO,

1st January, 1897.

Throughout all ages, the question, "*What shall we eat?*" and "*What shall we drink?*" has been an absorbing one with *all* men, and *some* ladies have been known to worry about, "*Wherewithal shall we be clothed?*" A question of as great importance, however, at this season, is, *Where shall we buy our Seeds?* The answer to the last question is found in this, our *First Annual Catalogue*. The *cheapest and best* is what generally decides the average customer, and it is right that it should be so. Ottawa is now a railway centre

of considerable importance. Vast areas of country have been recently brought within easy railway communication. A **Seed House** in the *Central Canada District* has long been a much felt want, and we now propose to fill it, with the help of a patronizing public.

We propose dealing altogether with the *Market Gardener, Florist and Private trade*, and to handle **High Grade Seeds** exclusively. We are well qualified and well situated to handle a business of this kind. Our Mr. Wm. Graham has been identified, for the last fourteen years, with the firm of W. Ewing & Co., Montreal, and our Mr. John Graham has been well and favourably known in this locality as a Florist, for the same length of time. With our lately extended Sunnyside Greenhouses and grounds on Linden Avenue, we have every facility for the careful testing and proving of all seeds we handle, and this very important matter is given particular care by us, but we give no warranty as to description or quality of any Seeds or Plants we send out, and we will not be responsible or in any way liable for any loss arising from any failure thereof. All Seeds or Plants bought from Graham Bros. must be accepted on these conditions or returned. We also use the greatest care in selecting our Seeds from the most reliable growers.

We have the **Central Experimental Farm** at our door, and have the benefit of the valuable experience and tests wrought out in this celebrated establishment.

We respectfully solicit the patronage of a generous public, and feel confident that a trial order will give you satisfaction, and will be repeated.

When to order. We would most respectfully urge intending customers to order their requirements as early after the receipt of this Catalogue as is convenient, so that their commands can be executed before the pressure of our spring work begins.

How to order. When ordering, be careful to *write your name and address legibly*, and say how you want Seeds forwarded, whether by **Post, Express, Freight or Boat**, and in addition to your post office address, give the name of the station or wharf to which goods are to be sent.

How to remit. Remittances by *Post Office order* or *Express order* are preferable, and are the safest and most convenient. When these cannot be obtained, *Registered letters* are sure to reach their destination.

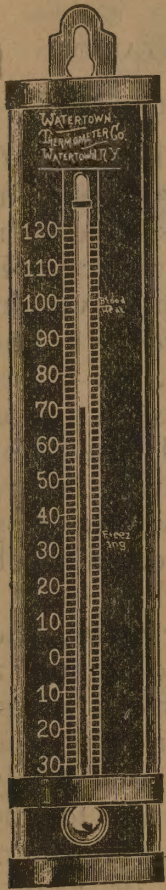

Our postal arrangements enable us to forward Seeds, Bulbs and Plants not exceeding five pounds, to any Post Office in the Dominion, at the rate of 4c. per pound, and our careful system of packing will carry them with safety to the most distant point. Customers, therefore, all over the Dominion are placed on the same footing as if buying over our counter, for, when cash accompanies order, *we prepay Postage, Express or Freight* on all Seeds ordered by the pound, ounce or packet priced in this list.

Yours very respectfully,

3 - GENUINE SNAPS - 3

OUR BARGAIN COLLECTIONS

To introduce ourselves, we offer the following complete collections of **HIGH GRADE SEEDS**, consisting only of Novelties and Varieties of recognized value, and with each collection we will *present as a premium, a good Thermometer.* The seeds distributed in these collections are all *First-class,—the Packets are large and the terms most liberal.* We will only forward these collections when cash accompanies order, therefore, on the receipt of the amount specified, we will forward at our own charge the following:—

❧VEGETABLE SEEDS❧

GENERAL LIST.

❧ The Novelties of the Season and our Specialties will be found in the body of the Catalogue, printed in bold type.

ASPARAGUS.

One ounce of seed will sow about 40 ft. of row. A bed 12 x 40 feet requires 100 plants, and is sufficient for the use of a small family. 7500 roots will plant one acre.

	oz.	pkt.
Columbian Mammoth White —A new and distinct variety producing white shoots of the Conover's size. The plant, however, is more robust and vigorous than the other giant varieties.....	20	5
Palmetta —This grand American variety grows to an immense size. The heads are green without any purple tinge whatever, and of excellent flavour and tenderness.....	10	5
Giant Purple Top —The variety generally grown.....	10	5
Conover's Colossal —Grows very large, often producing stems 3 and 4 inches in circumference; very tender.....	10	5

Asparagus Plants—2-year old plants of the three last named supplied at \$1.50 per 100.

ARTICHOKE.

The seed should be sown as early as the weather will permit, in drills. Succeeding spring, transplant to permanent beds, in rows 3 feet apart and 2 feet between plants.

	oz.	pkt.
Green Globe	40	5
Purple Globe	40	5

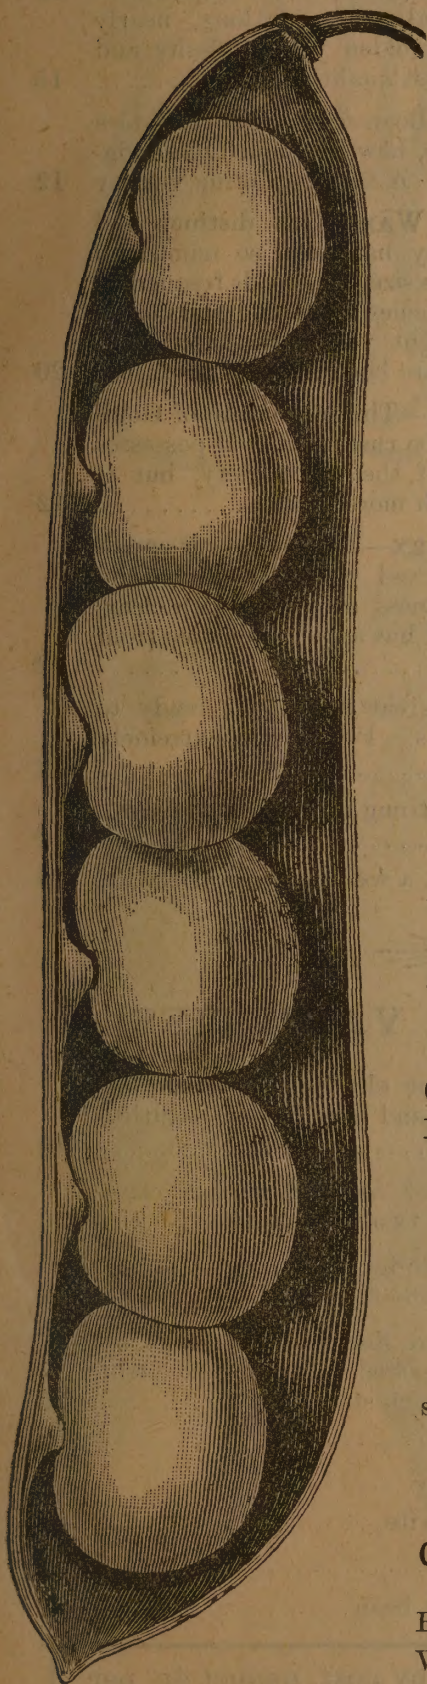

COLUMBIAN MAMMOTH WHITE.

BEANS—English.

Sow in drills two feet apart, and leave 5 or 6 inches between plants. One pound of seed will sow 100 feet of row.

—Please remember that our prices on Beans INCLUDE POSTAGE.—

	Per lb.
Giant Harlington Windsor —A highly esteemed variety in England, and much superior to Broad Windsor.....	25
Broad Windsor —Very large, remains long fit for use.....	20
Waite's Improved Early Long Pod	20
Mazagan	20

GIANT HARLINGTON WINDSOR.

IMPROVED GOLDEN WAX.

BEANS—Dwarf or Bush.

One pound of Beans will plant 100 feet of row. One bushel will plant a half acre in drills.

YELLOW PODDED WAX BEANS.

Improved Golden Wax (*Rust Proof*).—The standard variety for general use; pods long, nearly straight, broad, flat, golden yellow, fleshy and wax-like; of the highest quality..... 15

Currie's Rust Proof—Bean when ripe resembles the Black Wax. It is, however, much more vigorous and productive. A fine marketing variety 12

Yosemite Mammoth Wax—This distinct and remarkable new variety has been so named on account of its enormous size. The pods frequently attain a length of 10 inches, are round and nearly all solid pulp, are bright yellow in color, absolutely stringless, and are born in great profusion 20

New Golden Eye Wax—This new strain of Golden Wax is claimed to be rust proof. It possesses all the good points of the old variety, but is larger in pod and much more prolific..... 12

Wardwell's Kidney Wax—This variety is one of the finest dwarf beans in cultivation, and possesses the merits of earliness, hardiness and productiveness, combined with clearness of pod and excellent quality, and has as yet been free from rust, as far as our experience goes..... 12

Detroit Wax—This is a variety of great merit. Is ready to pick a few days later than Wardwell's. Pods round, extremely tender and of a beautiful clear colour..... 12

Golden Wax—A distinct variety of strong growth, and a week earlier than Black Wax..... 12

Crystal Wax—Bean white when ripe, a well known variety... 15

GREEN PODDED VARIETIES.

Extra Early Refugee—Similar to the old Refugee bean, but two weeks earlier. Very productive and pods have a beautiful silvery green colour..... 15

Burpee's Bush Lima—An improved variety of this class. Beans as large as the Pole Lima, and two weeks earlier..... 25

Early Red Valentine—Very desirable for marketing or family use. Early, productive, tender and fine flavour..... 12

Wonder of France—Very prolific and fine flavour; beans retain their bright green colour when cooked. It is an excellent shelled cooking bean. Improved French stock..... 25

Early China..... 12

Yellow Six Weeks..... 12

Improved Yellow Eye or Boston Favourite..... 12

Early White Marrowfat..... 10

Large White Kidney, a superior shelled bean..... 10

When ordered not to be sent by post, deduct 4c. per lb. from above prices.

BEANS—Pole or Running.

ASPARAGUS BEAN.

- One pound will plant about 100 hills.
- | | |
|--|----|
| Asparagus or Yard Long —Probably the finest pole bean in cultivation. Pods long and exceedingly tender . . . Pkt. 10c. | 40 |
| Creaseback —A fine old variety . . | 15 |
| Lazy Wife's —Green pods, quite stringless, rich buttery flavour . | 15 |
| Early Golden Cluster —The earliest Wax pole bean in cultivation. Pods 6 to 8 in. long . . . | 20 |
| Black Butter or Indian Chief —Waxy yellow pods; very tender in texture and fine flavour . . . | 20 |
| Cranberry or Horticultural —A well known productive variety . | 20 |
| Dutch Case Knife —Very productive and one of the earliest . . . | 20 |
| Lima, Large White —This delicious bean, either in its green or dry state, is universally acknowledged the best of the bean family | 20 |
| Scarlet Runners { Mainly cultivated for their flowers, but the pods are also used as a culinary vegetable | 20 |
| White “ | |
| Painted Lady “ | 20 |

BORECOLE OR KALE.

- Sow early in spring, cultivate same as Cabbage
- | | | |
|--------------------------------|-----|------|
| | oz. | pkt. |
| Tall Green Curled Scotch . . . | 15 | 5 |
| Dwarf Green Curled German . | 15 | 5 |
| Tall Moss Curled | 15 | 5 |

BRUSSELS SPROUTS.

- | | | |
|--|----|---|
| Dwarf Paris Market —A superior variety in every way . . | 25 | 5 |
| Giant Dalkeith —A good cropper | 20 | 5 |

BONSECOUR MARKET BEET.

—BEETS—

One ounce will sow about 50 feet of drill; 5 pounds will sow an acre.

HALF LONG AND LONG VARIETIES.

(Quarter pounds at pound rates.)

- | | | | |
|--|------|-----|------|
| | lb. | oz. | pkt. |
| BONSECOUR MARKET, Half Long —Without exception, the best and in every way the most satisfactory Beet in cultivation. Good colour, fine flavour, clean and regular | 80 | 10 | 5 |
| Dell's Superb Black —Dark red coloured root; not large, but fine flavour; splendid dark ornamental foliage | 1.50 | 15 | 5 |
| Long Blood —The heaviest cropper, fine quality | 45 | 10 | 3 |

BEET—Continued.

GROSBY'S EGYPTIAN BEET

THE BEST
AND
EARLIEST
BEET
GROWN.

TURNIP VARIETIES

Lentz.—An extra early Turnip Beet with a very small top, producing a crop in six weeks from time of planting. It keeps well and is productive. Lb. 60c., oz. 10c., pkt. 5c.

Crosby's Early Egyptian—An improved strain of the Egyptian Beet. Much thicker than the original strain, quite as early, smoother and of better colour and quality. Lb. 60c., oz. 10c., pkt. 5c.

Eclipse —A splendid round variety, dark red, and fine quality	lb.	oz.	pkt.
Egyptian Turnip —Very smooth and early; good quality, dark red colour.....	60	10	5
Early Crimson Turnip —Early and tender.....	50	10	3
Flat Bassano —Very tender, suitable for shallow soils.....	60	10	5

BEET--Stock Feeding Varieties.

MANGEL WURZELS.

OUR PRICES INCLUDE POSTAGE

Four pounds will sow one acre.

ERFURT MODEL MANGEL.

	Lb.
Mammoth Long Red —Best for general crop.....	25
Mammoth Golden Giant	25
Golden Tankard	25
Champion Yellow Globe	25
ERFURT MODEL —A superior new variety, rich dark yellow. Very clean grower, with little top.....	30
Norbitan Giant —Long red.....	25
GATE POST YELLOW —Pronounced by British farmers the most useful mangel grown. It is probably the best Yellow Mangel. Fine clean heavy roots.....	30
Long Red	22
Long White	25
Waite's Red Tankard	25
Long Yellow	25
Red Globe	25

ON LOTS of 5lbs. and over, DEDUCT 5c. per lb.
from above prices.

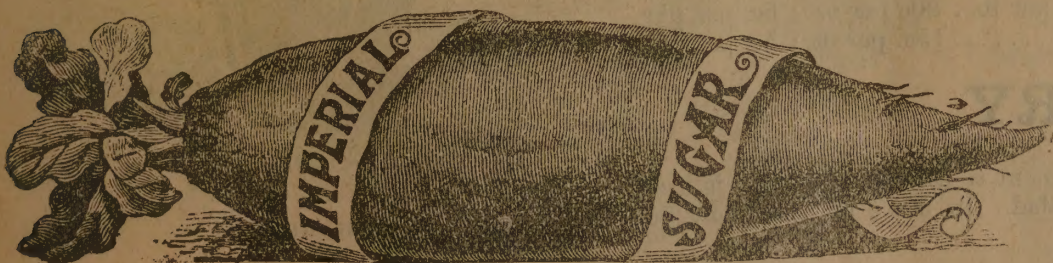

BEET—Continued—Stock Feeding Varieties.

SUGAR BEET.

Four pounds will sow one acre.

Imperial White Sugar—Grows to a good size, best variety for stock feeding	Lb. 25
Red Top White Sugar—Smaller than the preceding, but richer in sugar	25
Yellow Sugar—A very rich variety	30

OBSERVE.....
OUR PRICES
INCLUDE POSTAGE

—CAULIFLOWER—

One ounce of Seed will produce about 1500 plants.

HIGH GRADE ERFURT, FROM A PHOTOGRAPH.

Extra Early Dwarf Erfurt —Best forcing variety. Small leaves and pure white heads.....	oz. 25	pkt. 25
HIGH GRADE EARLY ERFURT —Best Cauliflower for general crop. Sure header, heavy, solid, pure white heads.	2.50	20
Dwarf Early Erfurt —Very early and similar to preceding, but not the highest grade	2.00	10
Henderson's Special Snowball	2.00	15
Extra Early Paris —Good Cauliflower for either forcing or outdoor culture..	1.00	10
Half Early Paris —Large flower, good for general crop.....	1.00	10
LENORMAND SHORT STEM — Best late variety. Large, solid head. Good keeper.....	1.00	10

Our Stocks of Cauliflowers are specially selected for Market Garden trade.

CARDOON.

Sow in May, in rows, and thin out to one foot apart; bind together and earth up like Celery.

Large Smooth Solid.....oz. 25c.; pkt. 5c.

CHARD or SEA KALE BEET.

Swiss Chard—Golden Ribbed, Red and White—The leaves of this sort are used as a spinach.....oz. 10c.; pkt. 5c.

CHERVIL.

Make a succession of sowings, beginning in May. Cultivate same as Parsley.

Double Curled.....\$2 per lb.; 20c per oz.; 5c. per pkt.

Common or Plain.....15c. per oz.; 5c. per pkt.

CHICORY.

Is a perennial plant; requires similar treatment to carrot. The root is used to mix with Coffee, and the leaves as a salad. lb. 60c.; oz. 10c.; pkt. 5c.

CHARD.

- Cabbage -

Our strains of Cabbage Seeds are the very best procurable, of American and European growth.

One ounce of Seed will produce about 1,500 plants.

EARLY VARIETIES.

Extra Early Express—The earliest variety yet introduced; is conicle in shape, resembling the Etampes but from 8 to 10 days earlier oz. pkt. 25 5

Early Paris Market—Is of the Ox-heart type, but larger and 10 days earlier. Forms a saleable head very quickly, and is a most valuable sort for market gardeners 25 5

Early Etampes—Is also of the Ox-heart type. Though forming a *hard head* as early, if not earlier, than the preceding; the first cutting for market will be made from the Paris. Both are thoroughly reliable early varieties, and we recommend them with the greatest confidence to our market garden customers 20 5

Large Ox-heart—A fine flavoured early sort, heads large and firm, and suitable for market gardeners 25 5

SECOND EARLY VARIETIES.

Henderson's Early Summer—Produces large and very solid heads, and comes in just after the Paris and Etampes. Soil must be rich.... oz. pkt. 20 5

Succession—A trifle later than the foregoing, but with a head much larger in size and of finer appearance and quality. A splendid sort for Exhibition purposes..... 25 5

EXTRA EARLY EXPRESS.

Jersey Wakefield—Early, large and solid. American saved seed oz. pkt. 25 5

Early Winningstadt—Many consider the Winningstadt the very best for early market sales. The head is so hard and solid that it is not affected with the cabbage worm to the same extent as other varieties. Our stock of Winningstadt is the best French grown. 20 5

LARGE LUPTON—Resembles the Vandergaw, but an improved type of this variety. A fine second early sort..... 25 5

Vandergaw—A second early variety, and a great favourite with Long Island gardeners—a sure header, and produces a head larger and of better colour and quality than Henderson's Summer..... 25 5

LATE VARIETIES.

Excelsior Late Flat Dutch—A reliable variety with large solid heads..... 30 5

Autumn King, or World Beater—One of the best late varieties in cultivation 30 5

Fottler's Improved Brunswick—Large solid head. If planted early will be ready for use in August.... 20 5

Large Brunswick Short Stem—Used as a second early and late variety, and produces very large and solid heads. A fine sort..... 25 5

St. Denis—A fine late French variety, a splendid keeper owing to its solidity of head. Very popular in the Quebec market..... 20 5

Marblehead Mammoth—Fine late sort; grows very large and firm, and keeps well. American saved seed..... 20 5

Cow Cabbage or Marrow Stem Kale—(Chou Moellier)—A rank growing variety, without head, but with abundant leaves and large nutritious stem. Used for cattle fodder. 10 5

LARGE BRUNSWICK SHORT STEM

CABBAGE—Continued.

LARGE AUBERVILLIERS SAVOY.

SAVOY VARIETIES.

	oz.	pkt.
LARGE AUBERVILLIERS —An extra large Drumhead Savoy with few outside leaves. This new variety is exceedingly mild flavoured and agreeable to the taste	30	5
Drumhead —Very large and hardy, best for general culture	25	5
Early Dwarf Ulm —An early, tender and delicately flavoured variety	20	5

RED VARIETIES.

DARK RED EARLY ERFURT —Very early and of deep blood colour. Head solid	30	5
Red Dutch —For pickling	25	5
Large Red Drumhead —For pickling, very large and solid	25	5

IF YOU ARE A MARKET GARDENER, SEND FOR
OUR SPECIAL RED LIST.

One ounce of seed will sow one hundred feet of drill, and four lbs. will sow an acre.

ALL CLEAN RUBBED SEED—FRENCH GROWN.

Quarter pounds at pound rates.

	lb.	oz.	pkt.
French Forcing Horn —Best forcing variety.....	1.00	10	5
Early Scarlet Horn —An early useful sort.....	80	10	5
Half Long Chantenay —Half long scarlet. An improved variety of Nantes, but with larger shoulders and more productive. Extra fine sort.....	80	10	5
Half Long Carentan —A coreless variety and very heavy cropper.....	1.00	10	5
IMPROVED HALF LONG DANVERS —Tapering root, very heavy cropper The heaviest cropping red carrot.....	1.00	10	5
Half Long Stump Rooted —Heavy cropper ; does not require so deep soil as the long varieties.....	80	10	5
Half Long Nantes —Heavy cropper ; a select stock of preceding variety.....	80	10	5
James' Scarlet Intermediate —A well known half long pointed variety.....	80	10	5
Half Long Guerande —Or Ox-heart. Intermediate in length between the half-long Stump Rooted and Early Horn. the root is very thick at the shoulder, tapering slightly to the point, is early ; and of fine quality and a heavy cropper.....	1.00	10	5
Long Red Stump Rooted —This sort has but little core or pith, which is a great acquisition in a table Carrot Is the best flavoured variety in cultivation.....	90	10	5
Long Orange —A very long sort, of good colour and flavour.....	50	10	5
Long Red Altringham —Large, and of fine quality ; keeps well.....	80	10	5

The above Stocks are all High Grade, French Grown
and clean rubbed seed.

FIELD VARIETIES.

ONTARIO CHAMPION —(Iverson's half long White). The heaviest and best white carrot grown. Ontario grown seed of splendid quality—(See Cut).....	60
Large White Short Vosges —A fine sort which we highly recommend, especially for heavy soils, as it is very thick and short, and easily pulled.....	50
White Belgian —The largest of the field varieties.....	40
Yellow Belgian —Hardly as large as preceding, but more solid.....	40

Carrots to grow in perfection require a rich, deep, sandy loam, well pulverized and deeply cultivated. For an early crop sow in May and June in drills about one foot apart, thinning out to 4 inches in the row ; sow for main crop in June. The large late varieties for field culture should be sown in drills 3 to 3½ feet apart, so as to cultivate by horse. An important point in sowing carrot, as in all other seeds, is to tread the rows firmly after sowing.

ONTARIO CHAMPION WHITE CARROT.

CELERY.

One ounce will produce about 2500 plants.

oz. pkt.

Paris Golden Yellow—Is of medium height, fine flavour and perfectly solid, and needs but little or no earthing up. The outer ribs are of a yellowish white, while the heart, which is large and solid, is of a rich golden yellow, and it thus has a most striking appearance on the table, and besides it is an excellent keeper.

50 10

Henderson's White Plume—Needs but little earthing up, and is of fine flavour. The leaves being variegated with creamy white are very ornamental on the table; should be used early.

25 5

Pink Plume—A very early variety of good flavour and beautiful pink shade of colour. Like all red celeries, it is a good keeper.

75 10

Golden Self Blanching—Of same character as White Plume, but of a rich golden colour.

30 5

Dwarf Large Ribbed—A remarkably solid sort, requiring little earthing up. We recommend it to market gardeners.

20 5

Giant Paschal—Grows one-third higher than Paris Golden Yellow. Colour white with golden heart. The stalks have a remarkable breadth and thickness and have a fine flavour, solid and nutty, and is one of the best celeries for keeping through the winter.

20 5

New Rose—A new variety, of deep rose colour and very solid and crisp, and one of the best in cultivation.

25 5

Large White Solid—Very large, good for early use.

20 5

Boston Market Dwarf—Branching habit, and has a fine nutty flavour.

20 5

Celeriac or Turnip Rooted

25 5

Celery Seed—For flavouring soup, pickles, etc. per lb., 40;

10

Corn Salad.

Sow in September in shallow drills, and protect with straw during the winter. The leaves are much esteemed as an early spring salad.

20 5

CORN.

Please remember, that our prices include postage. When ordered not to be sent by mail, deduct 5c. per lb. from List Prices.

EARLY VARIETIES.

- Ford's Early Sugar**—This new variety is quite as early as the Cory, but possesses the great advantage of being perfectly white in the grain, while the ear is about equal in size to the Crosby. doz. ears 50c. 1b
- Early Cory**—The earliest variety yet introduced. Market gardeners growing the Early Cory control the Early Market; this variety being fully a week earlier than the older varieties of early corn. dz. ears 50c. 15
- Early White Cory**—A white variety of preceding..... 15
- Kendel's Giant**—This new and distinct variety of Sweet Corn combines more merit than any other early variety in cultivation. The ears grow to a tremendous size, measuring 8 to 10 inches long and having ten to eighteen rows on each cob, the majority having twelve rows; kernels pure white, sweet and tender..... 20

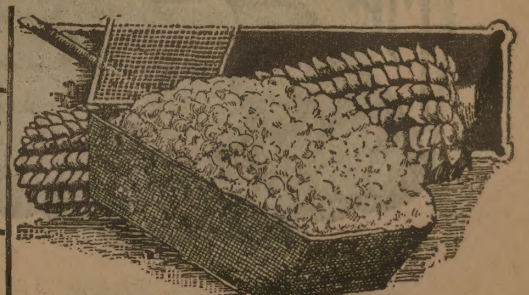

MEDIUM EARLY.

- Crosby Early Sugar**—The Standard Early variety.... doz. ears 50c. 15
- Country Gentleman**—A delicious variety, and very desirable for private use. The ears are of pearly whiteness, and although small, the kernels are exceedingly long..... 15
- None Such**—This splendid sort is a 12 row corn, with ears about as large as Evergreen Sugar. When in the green state the kernels are as white as snow and of delicious sweetness..... 15
- Old Colony**—A sweet variety, Stalks six to eight feet high, with large handsome ears. A selection of the Evergreen type, but about ten days earlier. A very desirable sort for canners and market gardeners..... 15
- Hickox Improved Sugar**—An excellent second early sort, very sweet and a fine cropper..... 15
- Mexican Black Sugar**—A black seeded sort, and perhaps the sweetest of all sugar corns..... 15

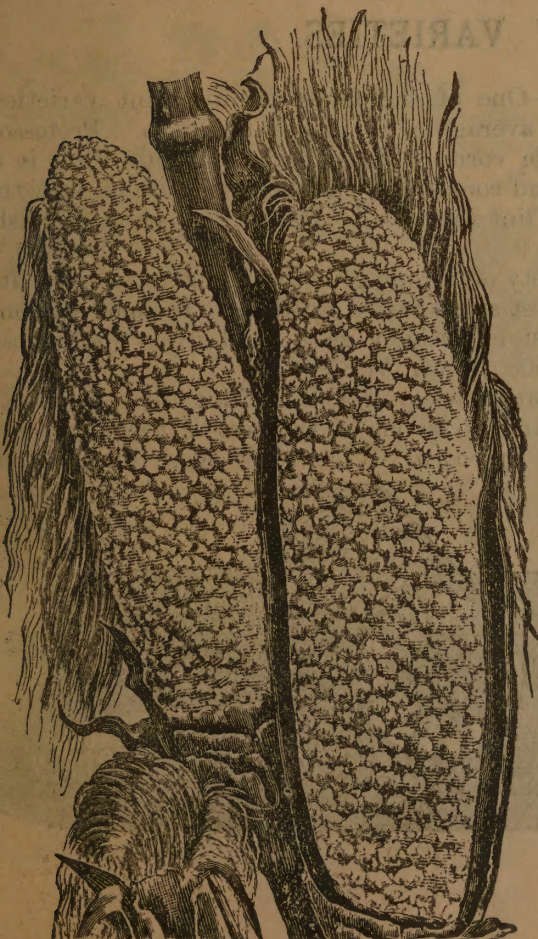

LATE VARIETIES.

- Zig Zag Evergreen**—The most desirable acquisition in Sugar Corn since the introduction of Stowell's Evergreen. Named Zig Zag Evergreen because of its irregular rows on the cobs. It will out-yield any other Sweet Corn now in cultivation. Is white in appearance, and owing to its tenderness, fine quality and delicious flavour, it can not fail to please..... 20
- Evergreen Sugar**—The standard late variety and one of the finest. doz. ears 60c..... 15
- Mammoth Sugar**—A late, but the largest of all varieties, and of very fine flavour..... 15
- Canada Yellow**..... doz. ears 30c. 10
- Canada White**..... doz. ears 30c. 10

RFD LIST.

WHITE RICE POP CORN.

COUNTRY GENTLEMAN CORN.

CORN FOR ENSILAGE.

In the production of Ensilage of the best quality, it is of the utmost importance to select only the best varieties of corn and in this country especially, the early ripening sorts. It is a mistaken idea that any sort of corn will make good Ensilage. One might as well expect any sort of beet or carrot to be equally good for table and stock feeding. While then it is of great consequence to have a maximum yield of stalks (and that result can only be had from the **Giant Dent Varieties**) Excellent quality of Ensilage can only be obtained from the **Early Ripening Varieties** of these. Some of the **Improved Dent Varieties** are now just about as early as the Flint Varieties and some of them should always be used. Red-cob although a splendid yielding variety, is, in the average Canadian Season, too late in forming a good ear. Too much importance cannot be given by **Dairymen** to the **Sugar Varieties** for either green feed or curing. Cattle fed with the Evergreen Sugar or Mammoth Corns will give good results and will waste none. This season the seed of the sugar sorts is unusually good and germinates well and the price is within reach of all.

DENT VARIETIES.

New White Cap Yellow—Matures three weeks earlier than Red cob, grows heavy, leafy stalks, the lower leaves keeping long green, and while the ears are as large as any of the Dent Varieties, they are more numerous and much fuller at the points. Taking it all round, it is the safest variety of Ensilage Corn we know of, being as sure to produce a crop of ripe ears in this latitude as the native White Canada Flint Corn. Peck 60c.; bush \$2.

King of the Earliest—This is one of the earliest varieties of Dent Corn in cultivation, a very strong grower with plenty of foliage. 10 feet. Peck 50c.; bush \$1.75.

Champion White Pearl—This new variety has given very great satisfaction. It is a medium early White Dent variety, of branching habit and profuse foliage, and produces large sized ears. We strongly recommend it. 10½ feet. Peck 50c.; bush \$1.85.

Clarks Early Butler—A good all round corn. Peck 50c. bush. \$1.75.

CLARKS EARLY MASTODON—This is the largest eared early corn and produces a heavy yield of fodder. It is the favourite variety in the United States to day and is worth a trial here. Peck 40c. bush. \$1.50.

Giant White Southern	} too well known to need description ; market price.
Red Cob	
Horsetooth	

FLINT VARIETIES.

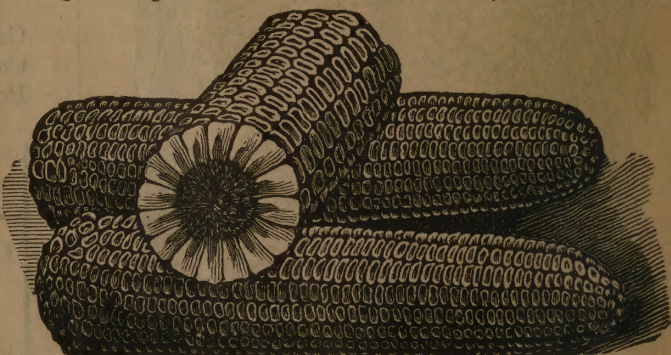

Thoroughbred White Flint—One of the finest White Flint varieties. Is very leafy, and with ears averaging 12 inches in length. Professor Robertson says of this valuable corn: "Thoroughbred White Flint is a very leafy sort, large yielder and comes early in the milk state of growth, but not so early as the other Flint varieties." 10 feet. Peck 50c.; bush. \$1.85.

Sandford—A White Flint variety of strong growth, and sure to ripen its ears sufficiently to make the best sweet tasted Ensilage. In some sections of Quebec this variety is almost exclusively grown and gives the highest satisfaction. 8½ feet. Peck 50c.; bush. \$1.85.

Early Longfellow—Another early variety of Yellow Flint Corn; generally conceded, and justly so, we think, to be one of the best of the very early varieties, either for Ensilage or ripe corn. 8 feet. Peck 50c.; bush. \$1.80.

Early Compton—One of the earliest varieties of Yellow Flint Corn. This sort will produce a good crop of fodder, and is also a reliable sort to produce ripe ears as well. 8 feet. Peck 60c.; bush. \$1.80.

Large Canada White,
Canada Yellow.

THOROUGHbred WHITE FLINT CORN

JAPANESE CLIMBING CUCUMBER.

SUGAR CORN.

Sugar Fodder or Evergreen Sugar—Is a heavy cropper, and is undoubtedly more nutritious than other sorts that are not sugar varieties. It makes splendid Ensilage, and is best of all for fall feeding. 9½ feet. 4c. per lb.; \$3.00 per 100 lbs.

Mammoth Sugar—The same class as the preceding, hardly so tall, but no variety of Corn excels it for the number of ears produced. We recommend it strongly. 5c. per lb.; \$4.00 per 100 lbs.

CUCUMBER

SELECT NORTHERN GROWN SEED.

One ounce will plant about fifty hills.

lb. oz. pkt.

Market Gardeners' White Spine—A select stock of this well known variety. Seed saved with the greatest care from the earliest and best specimens. \$1.00 10 5

Arlington White Spine—A remarkable fine strain, growing very even in size and regular in form. It is especially recommended to market gardeners from the fact that the first set on the vines is unusually even in form and size, and continue so through the season; retains its color 80 10 5

Peerless White Spine—This new sort grows extra long, is of handsome and smooth shape, very early and prolific. It differs from the other strains of White Spine in the fact of always remaining of deep green colour 1.00 10 5

New Giant Pera—A Turkish variety of excellent flavour crisp and tender at all stages of growth. Grows to a great size, frequently 12 to 18 in. in length, 8 to 10 in circum. 1.25 10 5

Improved Long Green—A superior strain of this variety, fine dark green colour, uniform size, crisp and tender . . 80 10 5

Long Green Prickly—Fine dark colour, approaching to yellow on maturity, tender and well flavoured. 1.00 10 5

lb. oz. pkt.

Giant White Perfection—A distinct and valuable variety, pure waxen white in all stages . . 10 5

Paris Pickling—Is decidedly the best of all in quality for pickling. When ready for pickling shows no sign of seed. . . 15 5

Cool and Crisp—An excellent variety for pickling. At pickling stage the points are long, even and slim, crisp, dark green color, good for slicing. . . 1.25 15 5

Japanese Climbing . . 20 5

Green Prolific—(or Boston Pickling.) A fine pickling variety 80 10 5

Early Frame—Medium size; good flavour 80 10 5

Early Cluster—Small early and productive. . . 80 10 5

Early Russian—Early, hardy, good for pickling. 80 10 5

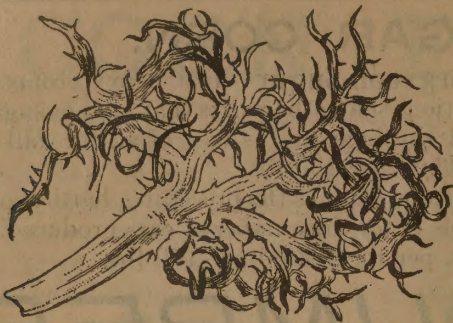

West Indian Gherkin or Burr (Jerusalem Pickle) . . 20 5

English Frame Cucumbers.

MUSTARD.

A pungent salad generally used with cress.

White—Best variety for salads..... 30 10 5

New Chinese Curled—The leaves of this variety are almost as curled as parsley. Flavour mild and agreeable 10

Chinese—This variety grows twice as large as the common sort, and the flavour is much milder and pleasanter..... 1.00 10 5

White—2nd quality. For flavouring pickles and relishes. lb. 20c.

MONSTROUS CARENTAN LEEK.

LETTUCE

ST. LOUIS LETTUCE.

One ounce will sow
about 100 square feet.

oz. pkt
Wheeler's Tom Thumb—Small variety, but the best for early forcing..... 20 5

Grand Rapids. One of the best loose-headed varieties for forcing. Good quality, crisp and tender. Leaves grow very upright, therefore plants can be grown closely 20 5

St. Louis—An excellent sort of Lettuce, producing good sized solid heads, very

crisp and tender. We strongly recommend it for forcing, and it's also good for open-air culture..... 20 5

- Denver Market**—A very fine sort for either forcing or growing outdoors. It forms large solid heads of a light green colour, and the distinctiveness of the variety is marked by its beautiful crimped leaves, resembling the Savoy cabbage..... 20 5
- Large Passion**—Grows to a great size and of fair quality..... 15 5
- Prize Head**—A much esteemed Western variety, making very solid heads..... 15 5
- Nonpareil**—An old variety and yet one of the best; colour a beautiful yellowish green, heads large and solid, very tender, and stands the summer heat..... 20 5
- Early Curled Simpson**—A black seeded, popular old variety..... 15 5
- Boston Curled**—Leaves beautifully curled; good forcing variety..... 20 5

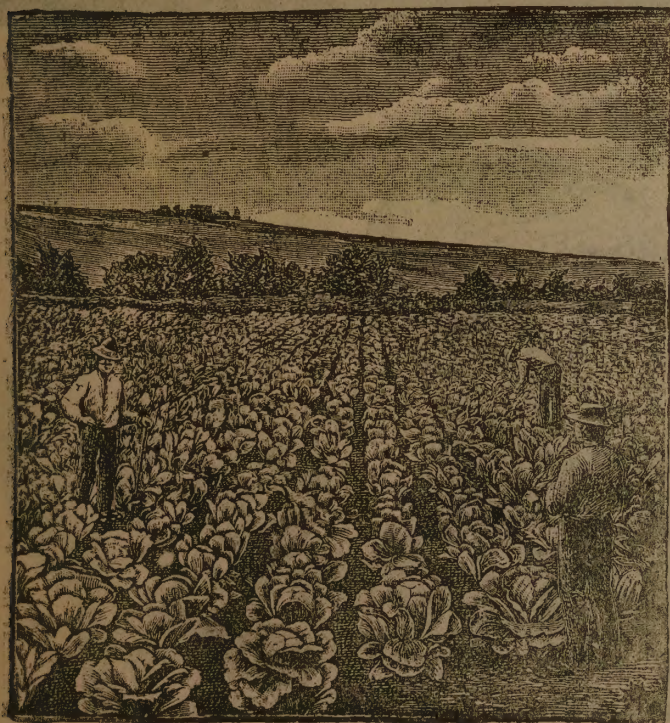

California Cream Butter—This variety forms large, solid, round compact heads, light green outside and creamy yellow within. It is medium early and strongly recommended as a summer variety..... 20 5

COS VARIETIES.

- PRINCE OF WALES COS**—A new variety of splendid quality..... 25 5
- Green Paris Cos**..... 20 5
- White Paris Cos**..... 20 5

We can also supply the following standard varieties, which are too well known to need description, at the uniform price of 15c. per oz.; 5c. per pkt. :—

Tennis Ball, Victoria, Deacon, Hanson, Salamander,
Boston Market, Curled Silesian, Bossin Giant.

--	------	----	---

Pen-y-Byd Marrow —(Or best in the World)—this new marrow is perfectly round in form, and the quality is what the name denotes.....	30	5	
---	----	---	--

ATLANTIC TOMATO

TOMATO

One ounce will produce about 1300 plants.

oz. pkt.

Atlantic, Earliest of All, or Early Ruby—

This fine variety produces medium sized, smooth, solid and finely coloured fruit, and is one of the very early sorts, and probably the best variety for early marketing

30 5

Early Michigan—An early, smooth variety; quite as early as Atlantic with larger fruit . . .

30 5

The Stone—Fruit very large, bright scarlet, very smooth, ripening evenly to the stem without a crack; exceedingly solid and firm fleshed, One of the best

30 5

Royal Red—Royal Red is a first-class main crop variety, and will prove of special value to canners and catsup makers by reason of its beautiful deep red colour

30 5

Buckeye State—New, one of the largest; fruits in immense clusters; in solidity and meatiness it has no equal. Colour similar to Beauty, but somewhat darker and richer . . .

30 5

Canada Victor—Very early, fine firm flesh, prolific bearer

25 5

Acme—A fine early smooth sort, one we can recommend

25 5

Volunteer—The fruit grows to great size, very perfect in form, fine bright red in colour, early and productive

30 5

Mikado—Very large and solid; purplish red fruit

30 5

Dwarf Champion—Its comparative freedom from rot, its remarkably erect habit, the fine form, colour and rich meaty quality of its fruit, has made Dwarf Champion an acquisition in many a garden

30 5

Brinton's Best—Pronounced the very best Tomato ever grown Medium early, vines grow vigorously, produce an abundant crop of finely formed, large, perfectly smooth fruit, beautiful deep red colour. It will pay gardeners to give it a trial

40 10

Ignotum—Very early and prolific. Delicious flavour

30 5

Livingston's Beauty—A fine large solid variety and an immense yielder. It is a fine sort for private gardens

30 5

Livingston's Favourite—Dark red; very large, perfectly smooth, hardly ever rots or cracks. Very popular

25 5

Ponderosa—The largest tomato in cultivation

50 5

Livingston's Perfection—This sort has every valuable quality; good size, extremely early, blood red colour, perfectly smooth

25 5

Trophy—Grows to immense size; solid; fine flavour, keeps well

25 5

Large Yellow—Useful for preserves

40 5

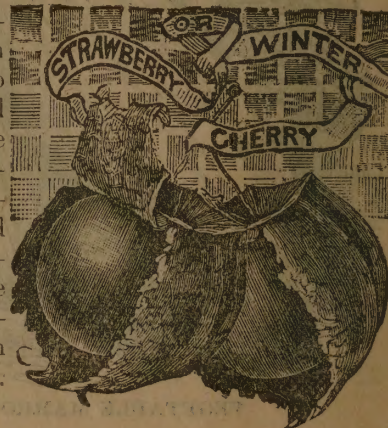

Yellow Plum—For preserves

50 10

Strawberry—Ground Cherry or Husk Tomato—Is strawberry flavoured, and is used for preserving

60 5

Peach Tomato—This beautiful new variety is difficult to distinguish from a peach as to colour and shape. The fruit is produced in clusters, is solid and red coloured inside while the skin is pinkish with green blush. oz. 40c. pkt. 5c.

TURNIP

Garden Varieties—One ounce will sow one hundred and fifty feet of drill.

Extra Early White Milan—The very earliest turnip in cultivation. The bulbs are pure white, and beautifully and uniformly shaped. The tops are very small and the quality of the flesh unsurpassed. 1.00 20 5

Early Purple Top Milan—The earliest turnip in cultivation. Bulbs flat and of medium size, very smooth, flesh white and of fine quality, and a good keeper..... 1.00 15 5

Scarlet Kashmyre—Although the skin of this new turnip is a beautiful light-red colour, the flesh is pure white, is tender and pleasantly tasted. It withstands drought much better than any other variety, a good recommendation in a garden turnip 20 5

Robertson's Golden Ball—The best of the yellows for general crop..... 50 10 5

Purple Top White Globe—An early variety, globe-shaped ; heavy cropper ; in other respects similar to the Red Top Strap Leaf. A handsome-looking bulb, and is rapidly taking the lead of all other varieties of early turnip for market garden purposes 60 10 5

Early Stone—Matures quickly..... 60 10 5

White Dutch—Very fine and juicy ; best for early sowing..... 50 10 5

White Strap Leaved—Fine sort of quick growth 60 10 5

Red Strap Leaved..... 50 10 5

Purple Top Early Munich—An early sort.. 75 15 5

Laing's Swede—Fine purple top garden variety of Swedish turnip, of medium size and excellent quality..... 30 5 3

Sweet German Swede—A medium sized garden turnip of extraordinary fine flavour and solidity of flesh..... 50 10 5

EXTRA EARLY WHITE MILAN.

SCARLET KASHMYRE.

TOBACCO

Canelle—A fine flavoured Canadian variety..... 75 10
Havana..... 60 5
Connecticut..... 40 5

Summer Flowering Bulbs

PRICES INCLUDE POSTAGE.

Our Bulbs are all First Size and must not be confounded with cheap inferior stock

LILIES.

Auratum (The Golden Lily of Japan)—This queen of the lily family produces flowers of the greatest beauty, pure white, thickly spotted with crimson, and through the centre of each petal runs a golden band. Very floriferous and deliciously fragrant. 20c. each; \$2.00 per doz.

Candidum (or St. Joseph Lily)—Pure white flowers produced in great abundance. Perfectly hardy 10c. each; \$1.00 per doz.

Speciosum Album—Very popular variety, blooms in August, pure white. 20c. each; \$2.00 per doz.

Speciosum Roseum—White, shaded and spotted with rose. 20c. each; \$2.00 per doz.

Speciosum Rubrum—White shaded with dark rose and spotted red. 15c. each; \$1.50 per doz.

Wallacei—This lily is very floriferous, each bulb throwing up from four to six flower stems, each one of which is crowned with three to ten beautiful upright blossoms of a delicate bright apricot color. It is very perfect in form and a most desirable sort. 25c. each; \$2.50 per doz.

Spotted Calla (*Richardia Alba Maculata*)—A splendid pot plant or plant for the centre of a bed in summer. Always attractive even when not in bloom, leaves a rich green, white spots. Each 20c.

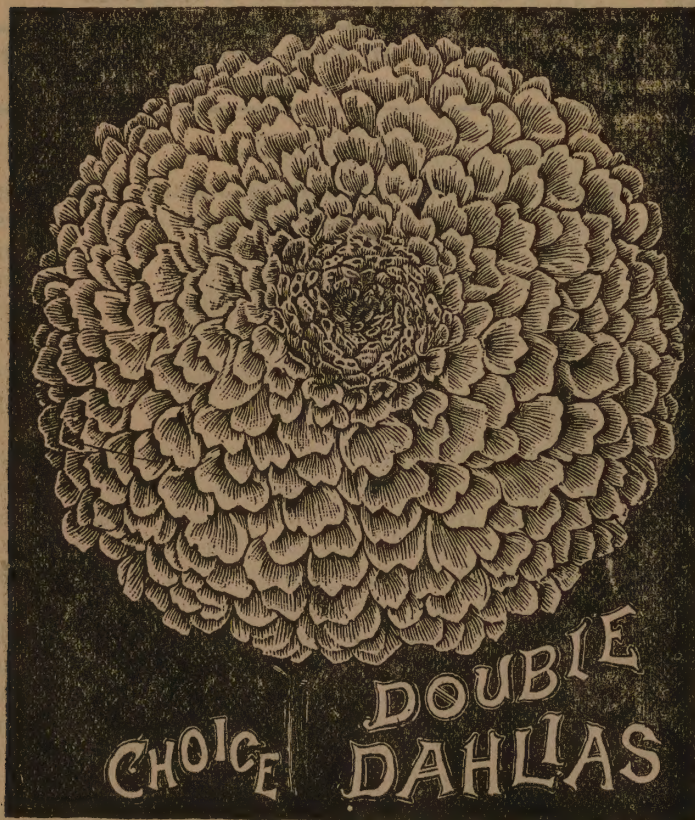

Little Gem Calla Lily (*Lily of the Nile*)—A choice variety of easy culture. Very dwarf and floriferous. Good sized plants. Each 20c.

Krameri—A rare Japanese Lily with flowers of similar form to those of *Auratum*, beautiful pink colour, deliciously scented; superb. Each 30c.

CALADIUM.

NEW ALBINO TUBEROSE—This new variety is of branching habit. The flowers are single, very large, with spreading petals, and of the purest white; there is no trace of the brownish tint common in all other Tuberoses. A single bulb throws up from two to five stout flower spikes, and these spikes are often branched. It flowers thirty days earlier than any other variety. Per doz. \$1.00; each 10c.

COLLECTION OF BULBS - -

OUR PRODUCTS in the arrangement of Wreaths, Anchors, Pillows, Crosses, Columns, and other designs have obtained a favourable reputation.

FLORAL TRIBUTES, BOUQUETS AND BASKETS OF FLOWERS—In the arrangement of these we lay claim to always being up to date in the latest styles and ability of execution; also to supply the **Finest Flowers** obtainable. The price can be estimated by the prevailing prices of flowers at the time, but ordinarily we can supply them at from \$2.00 to \$10.00 each, while we go below these figures for small and higher for very large pieces.

PLEASE STATE what Design, and about the price you would like to give and we are sure to give you satisfaction.

LOOSE CUT FLOWERS—In this shape many flowers are handled and shipped daily. Their prices are estimated by count mostly and vary according to season. If undecided about selecting, give us an idea of the use to which the flowers are to be put and leave selection to us. The following are on hand in their season:—Roses, Carnations, Violets, Tulips, Daffodils, Chrysanthemums, Easter and Calla Lilies, Hyacinths, Smilax, Asparagus Plumosus, &c., &c.

All orders neatly and securely boxed, and shipped promptly.

CENTRAL FARM LAWN GRASS
